

Think International! 24th Mar 2008

How concerned is your church with overseas development - issues such as trade justice, international debt, unethical supermarkets and the effect of the arms trade?

Churches Together in Coventry & Warwickshire - through its International Committee - has been seeking to raise awareness of these issues since 1991. But it now needs a new impetus. The issues have changed and we - and the churches - need to be aware of current needs and opportunities.

It particularly wants to help churches support initiatives that do not involve a financial outlay but will help to change people's lives.

It is therefore holding an **Open Forum** entitled 'Who really is my neighbour?' on Friday 4 April 7 30 – 9 30pm. It is inviting any one concerned with world issues to come and discuss what the International Committee could be doing to challenge the churches further.

If you, or anyone you are in contact with, would like to come, please ring Allen Edwards on 024 7667 2658 to let him know. **Coffee and cake will be served!**

Venue: Allen Edwards' house - 6 Belvedere Road, Earlsdon, Coventry CV5 6PF.
