Heritage in better condition

- **Urgent** structural repairs = needed within 2 years
- Clearly **identified** in Quinquennial Inspection or other condition survey
- Focus on single contracts
- Level of competition means HLF will prioritise projects deemed most urgent

New work

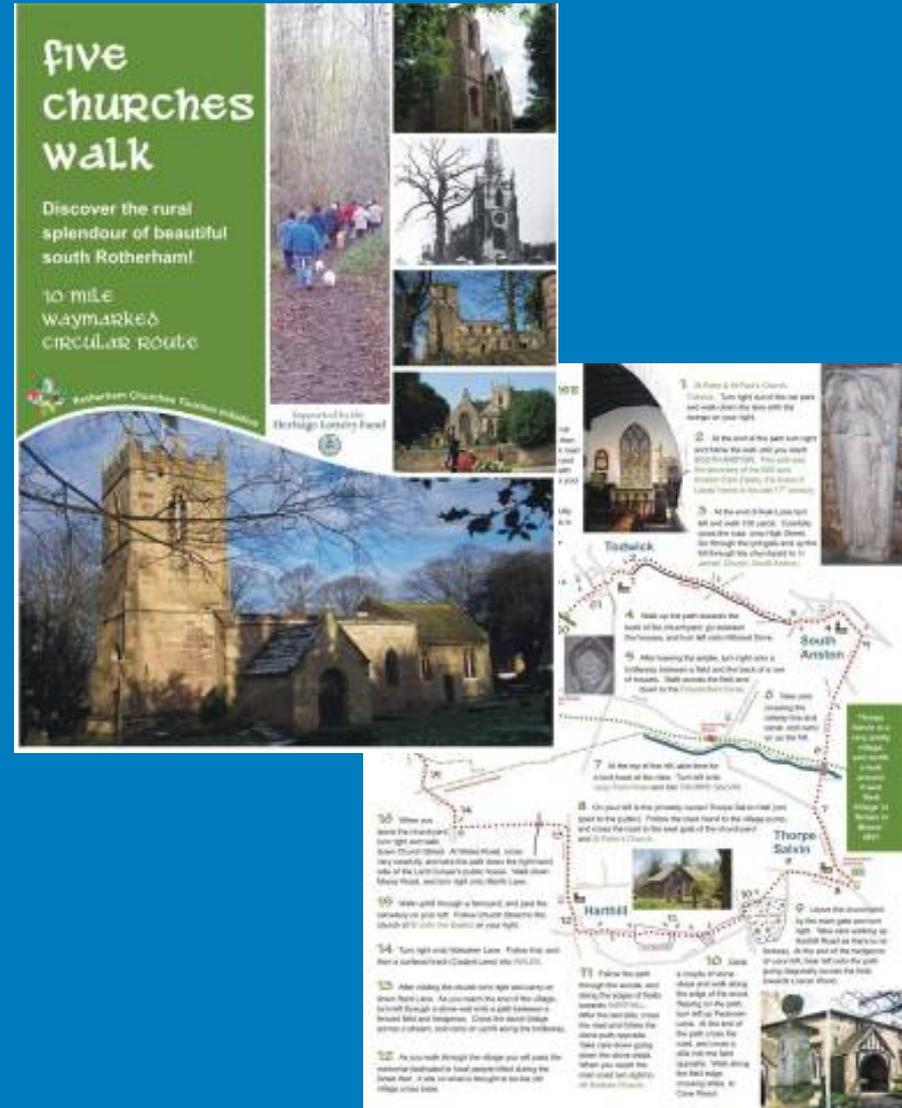

In addition – up to **15%** of total project costs could include:

- Work to improve long-term sustainability
- New facilities
- Improvements to heating and electrical systems
- Making it easier to carry out maintenance
- **These are not mandatory requirements**

Types of activities

- Toilets, kitchens and additional facilities as stand alone projects – i.e. without the urgent repairs
- Work to church halls or other premises used by the place of worship

Tips

- It's competitive! Typically 8 applications per quarter in WM; can afford to award just 2 or 3.
- Only applicants with the most urgent repair needs AND credible plans for community engagement are receiving awards.
- Projects take (much) longer than applicants expect
- Applicants without good support, e.g. from DAC or skilled volunteers, struggle with the process
- 'One Man' (or woman) applicants really struggle.
- Talk to other projects- e.g. St Peter's Grandborough, Holy Trinity Coventry, St Lawrence Barton-on-the-Heath
